The following applies to
WINDOWS VISTA ONLY!

Prerequisite: TI-Connect
(or the icon "C:\Program Files\Common Files\TI Shared\Icons\Program32x32.ico")

This archive contains registry entries to create file-associations as follows:
Associate83.reg -- GraphLink 83 Plus; double-click to integrate it into the registry hive.
      Associate *.8xp
      Associate *.83p
      Set default icon

Associate89.reg -- GraphLink 89; double-click to integrate it into the registry hive.
      Associate *.89p
      Set default icon

GraphLink.ico -- Icon file for start menu shortcuts; after saving it to your C:\ drive right-click the start menu shortcut and go to Properties > Change Icon and browse to the icon you just saved.

Known issues:
If you have tried to define a program association, this won't work right
      Workaround:
      1. Click "Start" and type "Regedit" and press [Enter]
      2. Delete the key "`UserChoice`" from each of the following (if it exists)

```
HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Explorer\FileExts\.89P
HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Explorer\FileExts\.83P
HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Explorer\FileExts\.8XP
```

      3. Close registry editor
      4. Reboot

TI-83 Plus Editor gives errors as opening a file and/or opens multiple times
      Workaround:
      1. Click "Start" and type "Regedit" and press [Enter]
      2. Navigate to

```
HKEY_CLASSES_ROOT\TI-83Plus.Program\shell\open\ddeexec
```

      3. right-click the key "`ddeexec`" and choose "Permissions"
      4. block permissions for every user (every entry) and click ok
