Italian Fiscal Code					
Name: <input type="text" value="Mario"/>					
Surname: <input type="text" value="Rossi"/>					
Born [yy/mm/aaaa]: <input type="text" value="04/1980"/>					
District: Milano					
Sex: <input checked="" type="checkbox"/> M <input type="checkbox"/> F					
<input type="button" value="Enter=OK"/>			<input type="button" value="ESC=CANCEL"/>		
fiscd_e()					
USE ← AND → TO OPEN CHOICES					

This program has been already used many times without problems. If you find any bug first assure you to have selected the English language in the Mode and not to have translated the code with any program. If the problem persists, please, let me know.

For a better and faster answer, please, enclose some screenshot of the bug: entered inputs, expected outputs, error messages, erroneous code line, Mode setting... it will help me very much!
