

DESCRIPTION

What can you really say about the greatest card game ever conceived? One word: DEFINITIVE! This game is an excellent, nearly flawless card game in TI-BASIC. I spent much time perfecting this version. Albeit, this program has some similarities to one for the 83 by TI, and I originally got psyched up by that one, but if you look at the code, then you'll see that this program is all me... ENJOY!

INSTALLING/USAGE

1. Send "Poker.9XG" to your TI-92 Plus.
2. Run APOKER\POKER.PRGM
3. Select 'Play New' the first time it is run.
4. The program is pretty self explanatory beyond that...
