**Thank you for choosing Mofrog 2005!** Mofrog 2005 is a fun variation of the classic TI Basic game Mofrog. While it features the same great game, Mofrog 2005 features the composite scoring system: the only accurate reflection of your ability. Mofrog 2005 features an updated version of our composite scoring system, adding fairness to the results. However, the Mofrog 2005 composite score is not compatible with the Mofrog 2004 composite score.

### **System Requirements:**

*Calculator:* TI 83 Plus, TI 83 Plus Silver Edition, TI 84 Plus, TI 84 Plus Silver Edition. Mofrog83 2005 will be released in the upcoming weeks.

*Applications:* MirageOS is recommended. MirageOS 1.2 is needed for compatibility with TIOS 1.13 and higher. MirageOS 1.2 allows you to archive the game and play it from there, freeing up valuable RAM.

*Free RAM:*

Storage: 2795 (if not Archived)  
Gameplay: 4058

*Free Archive:*

If Archiving Game: 2795

If Not: 0

### **How to Play:**

*MirageOS users:*

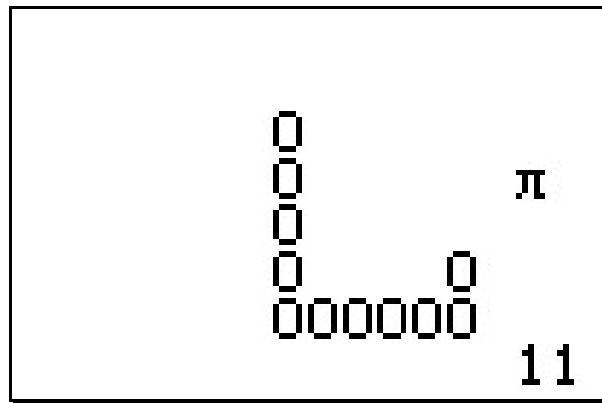

Select MOFROG "Mofrog 2005 (1.5.1)" from the folder you stored MOFROG in.

*None MirageOS users:*

Select MOFROG from the PRGM menu.

*While in game:*

Choose Menu Option 3 on the Mofrog 2005 menu for instructions on how to play.

Mofrog During the Game. I have 11 pts!
